

Private Networks

Secure, dedicated networks for critical business operations.

SOLUTION BRIEF
Private Networks

Public networks are shared environments—and when reliability, security and performance matter most, shared isn't enough. TDC delivers **Managed Private Networks** that give your organization dedicated mobile connectivity, guaranteeing consistent performance, enhanced security and complete control over your wireless infrastructure—without adding operational burden to your team.

The private network need

	Distributed Antenna System (DAS)	Private Network
Ownership	Shared infrastructure	Fully dedicated network
Capacity	Carrier-grade capacity	Reserved capacity for high density
Use cases	General building coverage	Mission-critical operations, IoT
Complexity	Moderate	Higher
Ideal for	Commercial buildings, retail, hotels	Manufacturing, healthcare campuses

Our solutions

Managed Services

Mobile Connectivity

- Distributed Antenna Systems (DAS)
- Wi-Fi
- **Private Networks**
- Signal Source as a Service (SSaaS)

Smart Building Solutions

- Fiber & IoT Networks
- Digital Infrastructure

Public Safety

Our expertise

Fully managed as if it were you

We manage the details with the focus you would, delivering a solution that drives business outcomes—not technical specs. Every decision is made as if we were accountable to your KPIs.

Integrated connectivity strategy

Private Networks are delivered as part of a broader mobile connectivity ecosystem—working alongside DAS or Wi-Fi when needed, and bundled with other digital infrastructure.

Experts in evolving requirements

Flexible architecture designed to grow with your property and your business—supporting the two approved Wireless Carriers today while adapting as carrier approvals and technologies change.

No upfront investment

We replace unpredictable upfront costs and unnecessary surprises with a predictable monthly operating expense, including all maintenance and monitoring, which means no upfront investment from you.

What we deliver

Dedicated, secure connectivity

A wireless network that's yours alone with consistent performance, strong security and traffic isolation from public networks.

Purpose-built design

Our solutions are built for your environment, use cases and operational needs, whether manufacturing floors, healthcare campuses or logistics hubs.

Guaranteed capacity and performance

Reserved bandwidth ensures applications run reliably even under heavy use—so critical systems never compete with external users.

Seamless integration

Private Networks work smoothly with your existing technology stack, complementing Wi-Fi, DAS and IoT systems to optimize reliable connectivity.

Get your cellular connectivity report

Our proprietary tool provides a clear, data-driven view of how mobile connectivity is currently performing throughout your building for all three Wireless Carriers—so you can pinpoint gaps and make informed decisions. Reach out to learn more.

Our core differentiators

	TDC	Other Wireless Providers	System Integrators	Equipment Providers	Wireless Carriers
Technology agnostic & neutral-host	✓	✓	✗	✗	✗
Custom solutions & business advisory	✓	✗	✗	✗	✗
Signal sources implemented	✓	✓	✗	✗	✗
Balance sheet capacity	✓	✗	✗	✗	✗
Digital infrastructure bundling	✓	✗	✗	✗	✗

TDC is your dependable partner for fully managed mobile connectivity solutions, financed, deployed and supported by us. We ensure phones and devices work seamlessly to enable collaboration and experiences—so you can stay focused on your core business. As one of the fastest-growing mobile connectivity companies in the U.S. and a member of the Tillman Global Holdings family, we connect people, places and experiences, enhancing asset value and powering the next generation of buildings, businesses and technologies.
