

Bank on connectivity you can count on.

INDUSTRY BRIEF
Finance

Financial institutions are navigating a fundamental shift—where digital experiences, physical environments and operational resilience must work seamlessly together. From headquarters to branches, employees and clients expect secure, uninterrupted mobile connectivity at all times.

Today's banking environments support everything from mobile transactions to AI-driven workflows, customer engagement platforms and critical security systems—requiring infrastructure that can reliably handle thousands of devices, applications and users without latency or downtime. Connectivity has become the fourth utility. TDC designs, funds, builds and operates **fully managed mobile connectivity solutions and bundled digital infrastructure with no upfront investment** that keep your systems, teams and clients connected—securely and without disruption.

Our solutions

Managed Services

Mobile Connectivity

- Distributed Antenna Systems (DAS)
- Wi-Fi
- Private Networks

Smart Building Solutions

- Fiber & IoT Networks
- Digital Infrastructure

Public Safety

Benefits

Increased employee & client engagement

- Frictionless entry and mobile credentials
- Workplace or client app integration
- Seamless mobile banking experiences

Safety, security & compliance

- Secure access controls, smart surveillance
- Secure authentication, identity verification
- 911 and emergency services

More efficient operations

- Mobile facilities dispatch
- IoT-enabled HVAC, lighting, occupancy
- Connected security desks, lobbies

New revenue opportunities

- “Connectivity-ready” leasing position
- Smart conference space monetization
- Personalized offers, real-time insights

82%

of employees in the finance sector use mobile phones for business tasks.

4 in 5

are more likely to work with a company that offers personalized experiences.

77%

of business leaders say mobile coverage increases workforce productivity.

Why TDC for finance

Custom-fit solutions for financial institutions

Industry-specific solutions from engineering and design experts who specialize in financial environments—balancing performance, security, compliance and UX across headquarters, offices and branch networks.

A platform for everything digital.

TDC bundles mobile connectivity with digital infrastructure—digital signage across branches, trading floors, corporate workplaces; surveillance across entrances, ATMs, trading environments, parking; sensors for access control, occupancy, environmental monitoring—all delivered under a single OpEx model with no upfront capital.

Easy button for finance-focused connectivity

We take a complex process—across Wireless Carriers, design, construction, operations and lifecycle management—and simplify into 3–5 guided decisions without disrupting employees, clients or operations.

No upfront investment. Clear terms.

We meet financial institutions where they are—with commercial models aligned to capital planning, branch transformation, and workplace modernization cycles, including options to reduce risk and eliminate upfront investment. Clear contracts, no hidden fees. Straightforward guidance with outcomes aligned to your portfolio, operations, and client experience strategy.

The business case for mobile

	Illustrative Range	Considerations & Assumptions
Increased Productivity and Client Value		
Employee productivity	Assume 10-15% increase	Fast, reliable connectivity drives 20-25% productivity gains
Employee turnover	Assume 15-20% decrease	Strong digital experiences reduce turnover by up to 30% and increase engagement 2-3x
Corrupt time / downtime	Assume 5 hours annually = \$1.5M; 50% recaptured	Enterprises lose \$300k-\$500k per hour of downtime; large financial institutions average 5-10 hours annually
Decision making	Assume 1-3% gain in revenue production	Real-time data reduces decision latency by 20-30% and increases retention ~40-50%
Operational Efficiency		
Smart thermostats & lighting	Assume 5-20% savings	IoT-enabled building systems (HVAC, lighting, occupancy) deliver 10–20% energy savings in commercial buildings
Monitoring & maintenance	Assume 5-10% cost savings	Predictive maintenance IoT and analytics programs reduce costs by 10-40% and equipment downtime by up to 50%

TDC is your dependable partner for fully managed mobile connectivity solutions, financed, deployed and supported by us. We ensure phones and devices work seamlessly to enable collaboration and experiences—so you can stay focused on your core business. As one of the fastest-growing mobile connectivity companies in the U.S. and a member of the Tillman Global Holdings family, we connect people, places and experiences, enhancing asset value and powering the next generation of buildings, businesses and technologies.
