

Distributed Antenna Systems (DAS)

Seamless cellular coverage for every corner of your property.

SOLUTION BRIEF
DAS

Mobile connectivity has become the fourth utility—just as essential as power, water and gas. But unlike traditional utilities, it's often delivered inconsistently, leaving gaps in coverage, performance and accountability. TDC's fully **Managed Distributed Antenna Systems (DAS)** bring structure and reliability to in-building cellular with no upfront investment—so connectivity performs like the critical infrastructure it's meant to be.

The challenge behind traditional DAS deployments

- Building materials block signal → **Unreliable indoor cellular coverage**
- Complex Wireless Carrier requirements → **Lengthy, unpredictable timelines**
- High upfront costs, unclear funding → **Surprise costs and contractual gotchas**

Our expertise

Fully managed as if it were you

We manage the details with the focus you would, delivering a solution that drives business outcomes—not technical specs. Every decision is made as if we were accountable to your KPIs.

Wireless Carrier engagement - simplified

We turn complex carrier engagement into a predictable, transparent process as a single point of accountability—aligning AT&T, Verizon and T-Mobile participation, approvals and timelines with your needs.

Built for scale and evolution

Flexible architecture that grows with your property and your business—scaling securely and efficiently for whatever comes next from 6G to IoT.

No upfront investment

We replace unpredictable upfront costs and unnecessary surprises with a predictable monthly operating expense, including all maintenance and monitoring, which means no upfront investment from you.

Our solutions

Managed Services

Mobile Connectivity

- **Distributed Antenna Systems (DAS)**
- Wi-Fi
- Private Networks
- Signal Source as a Service (SSaaS)

Smart Building Solutions

- Fiber & IoT Networks
- Digital Infrastructure

Public Safety

What we deliver

Purpose-built, partner-agnostic design

Our experts design a DAS tailored to your needs and industry, building partner-agnostic solutions that align with your business outcomes—regardless of equipment provider, technology or architecture.

Wireless Carrier grade performance

Consistent, high-quality connectivity across all areas—supporting everything from basic phone calls to advanced IoT applications.

Indoor, outdoor, in between

We deliver reliable coverage and capacity—indoors, outdoors and everywhere in between—ensuring consistent performance for all users and devices and no dropped calls in the handoff.

Designed to disappear

Our experts align the solution with your aesthetic and brand standards with concealed equipment that integrates seamlessly.

Get your cellular connectivity report

Our proprietary tool provides a clear, data-driven view of how mobile connectivity is currently performing throughout your building for all three Wireless Carriers—so you can pinpoint gaps and make informed decisions. Reach out to learn more.
